

NUTRITIONAL YEAST

NewLife™ Nature's Gift Nutritional Yeast is a complete source of protein containing 18 amino acids. It consists of more protein than meat and is more bio-available. A rich source of B-12 and folic acid, Nutritional Yeast is an essential supplement especially for those following a vegetarian dietary regime. Nutritional Yeast contains Glucose Tolerance Factor, which assists in regulating blood sugar levels.

Nature's Gift Nutritional Yeast absorbs the minerals from molasses, making it an amazing source of natural minerals. With its delightful nutty flavour, Nature's Gift Nutritional Yeast is an important nutritional source that caters to all ages.
